About Us

Incorporated in 1995, '**Electroweigh Instruments**' is among the prominent manufacturer and supplier of high quality electronic weighing and automation equipment. Our product range includes Electronic Weigh Bridge, Electronic Belt Weigher, Hopper Weighing System, Crane Weighing System, Hot Metal Ladle Weighing System and many more. Our product range is exclusively designed and developed with an aim to fulfill the requirement of our client, by offering qualitative range of weighing equipment. We have garnered a huge client base including process industries and public and private sector undertaking. Located at Peenya Industrial Estate in Bangaluru, our company has earned an impeccable reputation in the industry by offering best quality product, which is manufactured under strict quality control. The key to success to any company is "CLIENT SATISFACTION". To achieve this organizational goal, we conduct an in-depth study of Client's operational requirements, including site study whenever required before offering the system. This assures the client the quality of our product. Our product finds their application in Steel, Cement, Thermal Power Stations, Chemical Fertilizer, Pharma, Mining and Food industries. Our sister concern M/S AUTO WEIGH SERVICES (P) Ltd with offices at all the important industrial cities of India, carry out the exclusive after sales services of all our product supplied by us. Supported by a...
